Product Design

Spark Plugs

Advanced-engineered Champion Aerospace spark plugs are designed for the critical difference in performance, far beyond the ordinary. Champion Aerospace spark plugs stand up to high temperatures, pressures, and lead deposits, with a performance second to none. When you're up in the air, count on quality Champion spark plugs.

The #1 Choice Worldwide - OEM for all U. S. Piston Engines.

Champion spark plugs are a product of Champion's commitment to quality and advanced technology, a commitment that has made Champion spark plugs the #1 choice of engine manufacturers, maintenance technicians and pilots around the world.

Choose Iridium "S" spark plugs for high-performance engines.

Longer-lasting than platinum spark plugs, Iridium "S" plugs resist lead attack and provide better scavenging than standard platinum plug designs. For exceptional performance, even under the most demanding conditions.

Spark Plugs

Spark Plug Type Designation System

All Champion Aerospace spark plugs are identified by type designations as indicated on the following spark plug number and symbol chart. The symbol is composed of a rating position number, together with prefix and suffix numbers to indicate major plug design characteristics.

Typical Spark Plug Number with Symbol Explanation

R H B 37 E

Resistor

- None** - No Resistor
- R** - Mil-Spec. Resistor Erosion Protection

Electrode Design

- None** - Conventional Single
- E** - Two Electrode Massive
- N** - Four Electrode Massive
- S** - Single Electrode (Iridium)
- B** - Twin Electrodes (Nickel)
- R** - Push-wire - 90° to Center
- Y** - Projected Core Nose
- P** - Two Electrode (Platinum)
- W** - Two Electrode (Iridium)

Barrel Style

- None** - Unshielded
- E** - Shielded 5/8" - 24 Thread
- H** - Shielded 3/4" - 20 Thread (All-Weather Plug)
- V** - M18X1 - Metric

Heat Rating Position

- High Number** - Hot (50)
- Low Number** - Cold (26)

Mounting Thread

- B** - 18 mm
- M** - 18 mm
- J** - 14 mm
- L** - 14 mm
- U** - 18 mm
- N** - 14 mm

Reach

- 13/16" (2.06 cm)
- 1/2" (1.27 cm)
- 3/8" (.095 cm)
- 1/2" (1.27 cm)
- 1-1/8" (2.85 cm)
- 3/4" (1.90 cm)

Hex Size

- 7/8" (2.22 cm)
- 7/8" (2.22 cm)
- 13/16" (2.06 cm)
- 13/16" (2.06 cm)
- 7/8" (2.22 cm)
- 13/16" (2.06 cm)

Shielded Aviation Spark Plug

Shielded Aviation Spark Plugs are manufactured under military specification MIL-S-7886B.

Outside Gaskets

Champion

Part No.	Size
M-674	18 mm Solid Copper

"World record flights are nerve-wracking enough without having to worry about starting on time. All 28 records we hold with the Exxon Flyin' Tiger have started with SlickSTART."
- BRUCE BOHANNON

Cold start. Hot start. Any start. **SlickSTART™**

Also From Champion...

LASAR

Slick Magnetos

Champion Aviation Spark Plugs

Slick Harnesses

Improve your engine starting — hot or cold. SlickSTART™ unleashes a firestorm of ignition energy to get your engine started and get you off the ground. SlickSTART is so effective, even sub-optimal fuel mixtures and seriously fouled plugs won't stop the capacitive discharge output from providing the ignition boost your engine needs for reliable starts every time.

SlickSTART's sure starting power...

- Delivers up to 340% more spark energy to your plugs.
- Overcomes poor engine priming.
- Reduces costly electrical stress to your battery and starter.
- Requires no maintenance.
- Is approved for use with Slick magnetos.

Plus, it's inexpensive and easy to install. Just add SlickSTART to your impulse coupled magnetos or replace your antiquated starting vibrator.

For more information, call Champion Aerospace today.

4300/6300 Series Magneto

Now
Open for inspection

Take a close look at Slick's 4300/6300 Series and you'll see what we are doing to make magnetos better.

At Champion Aerospace, we're always looking for ways to make our magnetos better. So we asked experienced mechanics for their ideas on the ideal magneto.

The result is Slick 4300/6300 Series magnetos that make timing, installation, inspection, and maintenance simpler and more convenient than ever before. We also incorporated mechanic-endorsed features to improve performance and service life.

- **Lift-off housing** – Internal timing is not disturbed during inspections.
- **Simplified internal timing** – Improved internal markings and unique Slick E-gap tool make timing easier and more accurate.
- **Fully sealed bearings** – Keeps contaminants out and grease in for smoother operation, less maintenance.
- **Lower EMI Levels** – Redesigned housing improves sealing and results in less radio noise.
- **OEM Approved** – Models are available for more than 225,000 engines – all compatible with existing Slick Ignition Harnesses.

Get the ignition system that meets your needs for simple maintenance and quality performance. Contact your Slick Distributor for application information.

Introducing a New, Improved Shorter Oil Filter

Customers told us the height of a standard oil filter can make it difficult for them to install the filter in certain engine applications. So, operating on the premise that size really does matter, we made our Champion oil filter can 1/2" shorter and, in the process, added design improvements that now make our filters stronger and more effective than ever before.

By-Pass Valve

Meets TCM Specifications

Shorter Installed Height

Shortened can height by approximately 1/2", with no impact to the filter media's performance.

Improved Spring

Replaced old "leaf" spring with an improved coil spring design.

Thicker-Walled Can

Increased wall thickness for improved structural integrity.

Stronger Center Tube

Redesigned center tube for added strength, with collapse pressures more than double the current design.

New Inlet Design

Changed four-hole design to an eight-hole design for approximately 30% greater inlet flow area.

Increased Lid Thickness

Increased thickness of seaming lid by approximately 35%, which subsequently provided for higher burst and impulse testing.

Improved Baseplate Thread

Replaced cut thread with an improved rolled thread, without affecting tolerances on the thread dimensions.

New Zinc-Plated Stud

Incorporated new zinc-plated stud for increased protection against rust and corrosion (applicable to Champion part numbers CH48110-1 and CH48111-1).

Oil Filters

See what a sizeable difference 1/2" can make in your life. For more information, call, fax, or log onto www.championaerospace.com

Champion Aerospace's full-pleat, resin-impregnated micronic filter media traps all harmful particles, including metallic chips which result from abnormal engine wear. Because the oil flows through many layers of locked-in fibers, there is no migration of fiber material to clog engine oil passages or affect bearing surfaces. According to industry-approved tests, the Champion oil filter traps and holds more dirt and harmful particles during its normal operating time than any other similar filter.

Oil Filter Packaging Information

Champion Aerospace spin-on oil filters are packaged in individual boxes, with part numbers displayed prominently. All are equipped with an attached installation gasket. Those with male threaded studs have thread protectors to avoid damage.

All sizes of spin-on filters are packed 12 per case of a single part number, in heavy, reshippable corrugated-board cartons.

Champion oil filter elements are individually boxed, each with a plastic bag containing installation gaskets and instructions. This provides ample protection for these elements in storage and assures availability of necessary items for correct installation.

All sizes of replacement elements are packed 12 per case of a single part number in heavy, reshippable corrugated-board cartons.

Continental

CH48108-1* (TCM No. 649922) CH48109-1* (TCM No. 649923)
(Interchangeable)

Spin-On Oil Filters for Teledyne Continental Motors (TCM) Engines

Champion CH48108-1 and CH48109-1 oil filters have been assigned TCM part numbers 649922 and 649923. Many TCM engines have been modified per TCM service bulletins M74-2, M86-6 (Rev.1), Cessna conversion kits or through local field approval. These modifications may require a different filter part number than the one listed in our application data. Following is a list of filter adapters used on TCM engines with the recommended Champion filter.

Manufacturer	Adapter	Filter
Cessna	1250403-2	CH48110-1
Cessna	1250922-1	CH48110-1
Cessna	1250922-2	CH48110-1
Cessna	1250922-3	CH48110-1
Cessna	1250922-4	CH48109-1
Cessna	1250922-5	CH48108-1
Cessna	0556010-1	CH48110-1
Cessna	0450404-2	CH48110-1
TCM633324	CH48110-1	

Lycoming and Continental

CH48110-1 CH48111-1
(Interchangeable)

The airframe or engine manufacturer should be consulted for filter application data on field modified engines.

* These filters are equipped with an internal bypass valve. They can be used on any TCM engine equipped with or without a bypass valve in the oil filter engine adapter.

Full-Flow Spin-On Filters

For Lycoming and Continental Engines

**CH48922 (54E23093)
Spin-On Oil Filter Converter Kit**

Textron Lycoming now supplies the converter kit, formerly sold under Champion P/N: CH48922. This kit is now available from your Lycoming distributor under P/N: 54E23093.

Turbine Exciters

Product Features

Turbine Exciters

Champion Quality and Reliability.

Every Champion Aerospace exciter carries our full warranty and is backed by the Champion name. Our exciters are built to the same exacting standards that have made us a leader in aviation products for over 75 years.

Champion Exciters are Widely Used in the Following Engine Applications:

- | | |
|------------------------------|--|
| Honeywell: | AS907, TPE331, TFE731, ALF502,
LF507, 131-9A/B, 331-600 |
| Pratt & Whitney: | PW150, PW206, PW308, JT15D, PT6A, PT6C, PW207 |
| Sundstrand: | APS2000 |
| Williams/Rolls-Royce: | FJ44-1A, FJ33 |

Turbine Ignition Leads

Product Features

Contact Assembly - Provides sure sparks and clean, positive contact between lead, igniter and exciter.

Military-Grade Stainless Steel Shielding - Provides positive RFI protection and resists abrasion.

Core Assembly - Meets stringent OEM and military requirements and provides maximum spark efficiency and insulation value.

Champion Aerospace provides OEMs with high-quality, military-grade ignition leads manufactured with technology designed for the 21st century. Champion is a full ignition system supplier to the turbine engine market.

Champion has moved rapidly to supply the turbine aftermarket with top-quality, cost-effective replacement leads, as well as offering a lead overhaul program, a unique maintenance alternative. Regular, preventive maintenance helps avoid costly, unscheduled maintenance caused by worn turbine ignition leads. Often, cables that do not appear worn, but have weak shielding or poor connections can actually be about to fail. Whether you buy new FAA-PMA approved replacement leads or choose to overhaul your current leads, you're assured of quality, prompt delivery and maximum reliability.

NOTES

This chart is for reference only. Lead installation may change as a result of variations in ignition system configuration. Consult latest revision of the appropriate illustrated parts catalog for specific data. Champion FAA-PMA leads are manufactured by Champion Aerospace LLC
 *Type "2" ignition systems require Champion P/N 50383K (PWC P/N 3035333)

General Aviation Igniters

Product Features

Corrosion Protection

Silver-plated shell for protection against corrosion and seizing.

Leakage Protection

Dual seals for protection against gas leakage under high temperature conditions.

Protective Coating

Special coating prevents excessive chafing of shell, extending igniter service life.

Coated Bushing

Bushing coated to prevent lead sticking, allowing for easier removal and installation.

Tungsten Contact

Provides increased resistance to arcing with mating lead.

Positive Insulator Retention

Upper insulator shaped to provide positive component retention.

Shaped Insulator

Lower insulator shaped to provide positive component retention.

Patented Iridium Pin Design

Provides maximum resistance to spark erosion and increased service life.

Turbine Igniters

Design Features

Champion turbine igniters are a product of the Champion Aerospace commitment to the highest standards of quality and technology, a commitment that has made Champion the #1 choice of engine manufacturers, maintenance technicians and pilots around the world.

Champion-engineered safety-retention features are the best in the business and Champion developments in the turbine igniter design include fuel drain slots which keep the igniter from quenching out, air-cooling holes for longer life and engobe semi-conductive materials for quicker, more reliable starts.

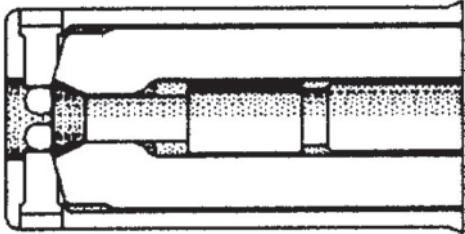

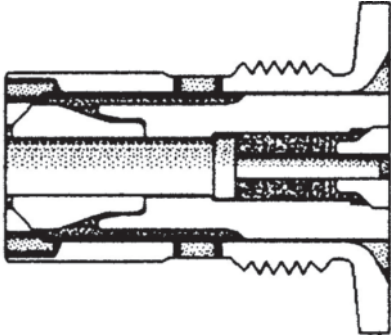

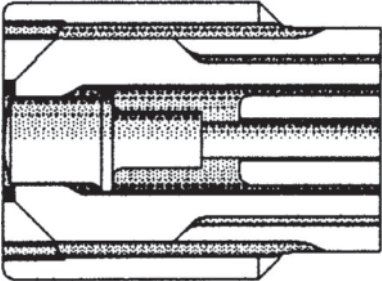

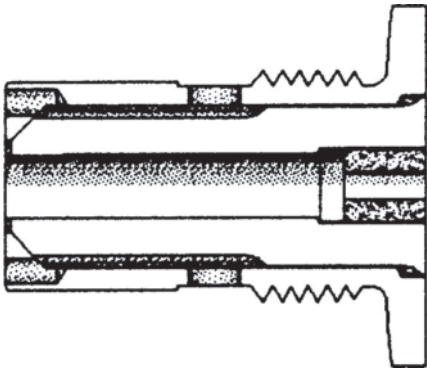

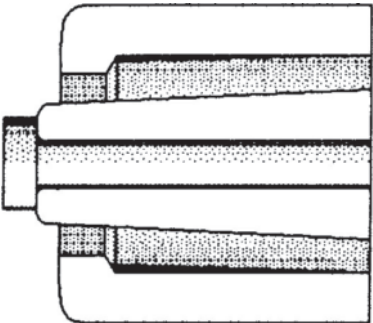

Champion Turbine Igniters cover over 300 different engine designs and are OEM on:
Allison, Honeywell, General Electric, Pratt & Whitney, Sundstrand/Turbomeca, Teledyne, Textron Lycoming, Williams International, Westinghouse and Rolls-Royce.

General Aviation Igniters

For airline igniter applications consult Champion Aerospace AV-22 catalog.

Illustrated below are six plug designs by firing end configuration.

Gap Description	Typical Firing End Configuration	Gap Description	Typical Firing End Configuration
High-Voltage Recessed Surface Gap (Long Life)		Low-Voltage Surface Gap (Solid Semiconductor)	
High-Voltage Surface Gap		Low-Voltage Shunted Surface Gap	
High-Voltage Air Gap		Low-Voltage Glow Coil Element	

Igniter Replacement Gaskets

Model 2600A

Spark Plug Vibrator Cleaner

† CT-435A Assembly
Fine Wire and Two Prong

The Champion vibrator cleaner has been designed to clean fine-wire or massive-electrode spark plugs that accumulate heavy lead compound deposits. Such deposits are virtually impossible to remove with standard abrasive cleaners.

- Quick-change cleaning head assemblies
- Easy replacement of single cutter blades
- Powerful vibrator drive unit for reliability and long life
- Flexible rubber mounting for portable or permanent bench installation

Specifications

Size: 5 1/4" x 4 1/4" x 7 1/2"
(13.4 x 10.8 x 18.7 cm.)

Shipping Wt: 7 lbs. (3.2 kg)
(incl. accessories)

Carton Size: 8" x 8" x 8"
(20.0 x 20.0 x 20.0 cm.)

Electrical Requirements: 110 V 60 Hz

Model CT-475AV

Spark Plug Service Unit

Cleaner & Tester

For Cleaning: Two flexible rubber adapters handle 14 and 18mm plug types.

Specifications

Size: 11 1/2" x 16 3/8" x 12 1/8" (29.2 x 41.5 x 30.7 cm)

Shipping Weight: 15 lbs. (6.80 kg)

Color: Grey, Red, Black

Compressed Air Required: 125 - 180psi (8.9 - 12.8 kg/cm²)

Electrical Requirements: 115V

Carton Size: 12 1/2" x 13" x 17 1/2" (31.8 x 33.0 x 44.5 cm)

Note: Use 91893 abrasive charge only. (See Replacement Parts List.)
Model 800 Cleaners, use two (2) charges.

For Testing: Steel adapters of 14 and 18 mm are standard equipment and conveniently stored on top of cleaner for ready availability. Molded of rugged A. B. S. plastic which is durable, oil resistant and easy to clean. An aluminum-base frame is included, which permits easy mounting to a work bench and quick removal.

The solid state ignition system produces a stable ignition test voltage providing greater accuracy and reliability. Its lack of moving parts eliminates the major cause of tester failures.

Cleaning is by a dry-abrasive air blast, which quickly and effectively removes conductive deposits.

All compressed air for both cleaning and testing passes through a "built-in" automatic water trap to stop harmful air line moisture.

Service Tools & Equipment

CT-496

Igniter Lead Connector Wear Gauge

Igniter lead connector wear gauge for ARP670 type 2M fittings common to PT6 leads and others. Features a calibrated pin to measure connector wear. Opposite end sized to measure neoprene grommet expansion.

CT-709

Oil Filter Wrench

Designed for easy removal of Cessna oil filter adapters from 150 Series thru 300 Series aircraft. Manufactured from tool quality steel, features both 3/8" and 1/2" drives, as well as "flip over" reversability.

Shipping Weight: 11 oz. (311 g)

CT-497

Igniter Lead Wear Gauge

Igniter lead connector wear gauge for ARP670 Type 3M fittings common to TPE6331, TFE731 leads and others. Features a spring weighted pin for an accurate "pull test" of connectors.

Size: 15/16" (3.33 cm)

Shipping Weight: 11 oz. (311 g)

Carton Size: 3-1/2" x 1-1/4" x 1-1/4"
(8.89 x 3.18 x 3.18 cm)

Note: Many leads incorporate type 2M & 3M connectors at opposite ends. Both CT-496 & CT-497 gauges are recommended.

CT-449

Thread Clean-Out Tool

For cleaning aircraft engine spark plug 18 mm bushings to assure correct installation of new or overhauled spark plugs. Regular 7/8" (2.22 cm) hex fits spark plug sockets. Precision ground threads, three deep flutes retain carbon debris.

Approximate Length: 4" (10.1 cm) long

Weight: 7 oz. (198 g) Packed individually.

CT-415AV

Gap Setting Tool w/ 7/8" Thread Adapter w/ CT-466

A low-cost efficient gap setting tool for closing gaps on massive electrode-type aviation spark plugs. Designed for use as a hand tool, for mounting on a bench, or to be held in a vise. Complete with one adapter for 18mm massive plugs (Part No. GT-204) and one CT-450 gap gauge. Also includes GT-208 adapter for regapping REM37BY plugs.

Size: 7-1/2" (19.5 cm) High

Weight: 1-1/2 lbs. (0.68 kg)
Packed individually.

CT-446 & CT-446-18

Spark Plug Tray

Sturdy steel tray holds up to 12 or 18 aviation spark plugs. Speeds handling of used or new plugs. Holes numbered to correspond with engine cylinders. Protects against shielding barrel contamination. Flat rubber, non-slip pads.

Approx. Length: 5" x 8" x 3-1/2"
(12.7 x 20.3 x 8.9 cm)

Weight: 7 oz. (198 g) Packed individually.

CT-450

Retractable Gap Gauge

High impact red plastic case contains 4 sets of accurate retractable go and no go wire gauges:

2 sets: .015 - .019 (.016 Nom)
(0.40 - 0.50 mm)

2 sets: .018 - .022 (.019 Nom)
(0.45 - 0.55 mm)

Size: 3-1/2" (8.9 cm) long

Weight: 1-1/4 oz. (35 g)

Replacement package of 4 wire gauge sets complete as described above. Order Part No. CT-450-WG.

CT-457

Fine Wire Gap Setting Tool

Designed exclusively for adjusting fine wire electrode spark plug gaps. Slot fits iridium ground electrodes for quick, safe adjustment.

Size: 2-1/4" x 2" x 1/4" (5.7 x 5.0 x 0.63 cm)

Weight: 1/2 oz. (14 g) Packed individually.

No. 52243

Crimping Tool

A special tool used to crimp turbine ignition lead contacts to the unshield center wire.

Shipping Weight: 14.4 oz. (408 g)

LICENSE ARRANGEMENT: Champion service tools are distributed under license by Ideal Aviation, Mesa, AZ.

Service Tools & Equipment

CT-923

Can Cutter

The new improved CT923 Cutter allows for oil filters to be cut in either direction. This is a complete tool with no parts or adapters to change. It is very easy to use, and will provide a simple effective means of cutting open oil filters. The cutter blades in the CT923 are the same blades that are used in the CT470. Also cuts the Champion RBC308 filter used on the Rotax 912 and 914 engines.

NOTE: CT-923-4 Cutter Blade

CT-494

Igniter Erosion Gauge

The CT-494 accurately determines wear on 10 of our most popular surface gap igniters. Insuring maximum igniter life without exceeding safe wear limitations. For use with following igniters:

CH31547, CH31621, CH34055, CH34168, CH34187, CH34269, CH34304, CH34406, FHE146-7 and FHE246-4
Heavy duty protective sleeve included.

Shipping Weight: 1 oz. (28 g)

CT-921

Oil Filter Torque Wrench

The CT-921 can be used for oil filter installation and removal. It is calibrated to 17 foot pounds, the recommended torque. Can easily be recalibrated when necessary.
1" Hex.

CT-2500A

Gap Setting Tool

Complete with accessories and gauges listed below, instructions for use. Packed individually, partially assembled.

Size: 6" x 5 1/2" x 6" (15.2 x 13.9 x 15.2 cm)

Handle Size: 9 1/2" (24.1 cm) long

Shipping weight: 5 1/2 lbs. (2.49 kg)

A precision gap-setting tool for all massive-electrode Champion spark plugs. Permits simultaneous adjustment of two opposite prongs without removing the spacing gauge. Designed for permanent installation on bench or heavy wooden board.

Replacement Parts For 2500A Gap Setting Tool:

CT-458-2	Lever
CT-458-3	Toggle Link
CT-458-4	Toggle Arm (<i>Long Top Arm</i>)
CT-458-5	Toggle Pin
CT-458-6	Stationary Finger
CT-458-7	Stationary Finger Support
CT-458-10	Upper Collet Bushing
CT-458-11	Centering Bushing

NOTES

Over Pressurized Lube Oil Filters

Have you ever had a filter that appears to be “BLOWN UP”? Looks like a balloon or the gasket is protruding from the base of the filter? Often the deformed filter is the only sign that a problem existed in the lube oil system.

The first thing you want to blame is the filter. However, if the pressure was sufficient to blow out the gasket or unroll the lockseam, the pilot may have experienced immediate and costly problems. This should be considered a non- airworthy condition.

A look at how a lube oil system functions will show that the oil pump creates oil pressure. A pressure-regulating valve controls the upper limit of this pressure, which is usually an integral part of the pump.

Figure 1 is a simplified diagram of the lube oil system showing the pump, regulating valve, filter and bearings.

FIG. 1

The oil pump supplies sufficient flow to lubricate the bearings and other moving parts of the engine. This oil must be under pressure if it is to properly separate the highly loaded parts of an engine and prevent excessive wear. The purpose of the regulating valve is to provide a constant pressure for the system.

Continue On next page...

The regulating valve consists of a ball or plunger, which regulates pressure with the aid of a spring. The spring is calibrated so that the plunger will lift off its seat when the oil pressure reaches the desired setting. Once the valve is open, the pressure remains fairly constant with only small changes occurring as the engine rpm varies.

The filter and all other components in the oil system are subjected to the pressure established by the regulating valve. If this pressure is excessive, filter damage may occur. This is the point that many mechanics that are not familiar with lube systems fail to realize. Just remember any blockage in the system can also send the pressure beyond what the filter can stand which is rated at 400 psi. Burst.

Figure 2 shows the system operating with the regulating valve stuck in the shut position. Under this condition the pressure will build up in seconds and unless something happens to relieve the pressure the filter will become the victim and not the cause. With a high spike of pressure the gasket will blow out or the lockseam will unwind as the pressure increases.

EXCESSIVE PRESSURE

FIG. 2

In conclusion, if a filter distorts due to over pressure in the system, the fault might be the regulating valve
Not the filter

CHAMPION AEROSPACE PRODUCTS WARRANTY

SPARK PLUGS, IGNITERS, OIL FILTERS, LEADS & EXCITERS

Champion Aerospace LLC ("Champion") warrants that spark plugs, harnesses, oil filter, exciters, leads and igniters sold by it are, at the time of delivery, free from defects in material and workmanship, provided that no warranty is made with respect to:

- (a) any product that has been subject to negligence, accident or improper storage;
- (b) any product that has been improperly installed or maintained; or
- (c) any product that has been operated beyond normal or recommended replacement intervals or wear limits.

Champion's obligation under this warranty is limited to the replacement of, or at Champion's option, the return of the purchase price of any product which is returned to Champion or its designated representative (at customer's expense) within one (1) year from the date of purchase and which, upon inspection by Champion, is found by Champion to be defective in material or workmanship. Champion shall not be responsible for the cost of labor removing any defective product or installing any replacement product.

THE AFORESAID WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESSED, IMPLIED OR STATUTORY, INCLUDING, BUT NOT BY WAY OF LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

NOTE: All service tools and test equipment bearing the Champion logo are distributed by Ideal Aviation, Inc. under license from Champion Aerospace LLC and are subject to the terms of a separate warranty provided by Ideal Aviation, Inc. All claims in connection with such products should be referred to Ideal Aviation, Inc., 564 E. Juanita Ave., Mesa, AZ 85204.

Champion Aerospace LLC LIMITATION OF LIABILITY

If Champion Aerospace LLC ("Champion") breaches any of its obligations to Distributor in connection with the sale of any products to Distributor, whether the breach is one of the warranty or for any cause whatsoever, whether in contract or in tort including negligence, Champion may request the return of the products and tender to Distributor the purchase price theretofore paid by Distributor and, in such event, Champion shall have no further redelivery of the products. If Champion so requests the return of the products, Distributor shall redeliver the products to Champion in accordance with Champion's instructions at Champion's expense. THE REMEDIES PROVIDED HEREIN AND IN CHAMPION'S WARRANTY SHALL CONSTITUTE THE SOLE RECOURSE OF DISTRIBUTOR AGAINST CHAMPION FOR BREACH OF ANY OF CHAMPION'S OBLIGATIONS IN CONNECTION WITH THE SALE OF ANY PRODUCTS TO DISTRIBUTOR, WHETHER THE CLAIM IS MADE IN TORT OR IN CONTRACT, INCLUDING CLAIMS BASED ON WARRANTY, NEGLIGENCE, STRICT LIABILITY, DECEIT FRAUD, MISREPRESENTATION OR OTHERWISE.

IN NO EVENT SHALL CHAMPION BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES (REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT OR IN TORT INCLUDING NEGLIGENCE) NOR LOST PROFITS, NOR SHALL CHAMPION'S LIABILITY FOR ANY CLAIMS OR DAMAGE ARISING OUT OF OR CONNECTED WITH THE MANUFACTURE, SALE, DELIVERY OR USE OF ANY PRODUCTS EXCEED THE PURCHASE PRICE OF THE PRODUCTS.

Warranty Terminology

The following serves as a basic explanation of some of the terms used in the Champion warranty. In no event does the following amend or expand Champion's warranty. Furthermore, paragraph 3 through 9 lists several examples which are in no way exclusive to any other scenario.

1. Defect in Material. Defect in the materials used in the product. Examples: a defect in the metal used in this product.
2. Defect in Workmanship. Defect in the workmanship involved in the direct manufacture of the product.
3. Negligence. Any type of mishandling or unreasonable handling of the product or handling of the product which results in damage.
4. Accident. An event beyond the reasonable control of the person involved.
5. Improper Storage. Storage in any environment or location which may cause damage. Example: storage of the product outside of the protective poly tubes.
6. Improperly Installed. Installation not in strict accordance with Champion's specifications. Example: the use of pliers instead of an approved wrench to tighten the product. Example: the installation of the product of an unapproved application.
7. Improperly Maintained. Maintenance not in strict accordance with Champion's specifications. Example: the failure to inspect or replace at the specified or proper time (hours or cycles).
8. Operated Beyond Normal or Recommended Replacement Intervals. Operation beyond normal replacement levels. Example: the continued operation of an igniter at 401 cycles if it requires, by use or specification, replacement at 400 cycles.
9. Operated Beyond Normal or Recommended Wear Limits. Operation beyond normal wear or recommended limits. Example: the continued operation of an igniter 8.34 mm if, by use or specification, it has a maximum ground electrode (shell) erosion limit of 8.33 mm (.328 in.).

Any igniter that has been subjected to:

Negligence	Improper Maintenance
Accident	Operated Beyond Replacement Interval
Improper Storage	Operated Beyond Wear Limits (collectively, the "Factors")
Improper Installation	

... is beyond warranty coverage. Champion is in no way responsible for ascertaining the presence of any of the above factors; instead, the party to whom Champion extends the warranty is responsible to insure that the above factors do not exist.

If an igniter is replaced during troubleshooting and Champion finds the igniter to be serviceable per the approved Component Maintenance Manual or Igniter Technical Notice and Champion notes no material or workmanship defect during the investigation, or notes or discovers the existence of one or more of the Factors, Champion will not allow warranty replacement or credit.

If Champion notes a material or workmanship defect at the warranty investigation and notes that no Factors exist, a replacement or credit will be issued in accordance with the Champion Aerospace LLC Warranty Statement.

PREFACE

This catalog is intended to be used as a reference guide for engine products designed and manufactured by Champion Aerospace LLC. Most of the products in this catalog have FAA-PMA approval. For questions concerning FAA-PMA approvals or application verifications, please contact your Champion Aerospace distributor or call Champion Product Support/Technical Services at 864-843-1162.

All rights reserved. The Champion Aerospace catalog may not be copied without prior permission from Champion Aerospace LLC.

The information and data contained in this catalog are from various sources. The information and data is subject to change. If the operator is in doubt, Champion Aerospace recommends referring to the engine OEM information or FAA-PMA documentation for approval verification.

Champion Aerospace assumes no liability in the result of damage related to the improper use of this catalog for other than informational purposes.

Introduction

The AV-22 catalog is a guide to identify Champion Aerospace parts used on various aircraft/engines. Some parts are OEM approved with licensing authority from the OEM. Other parts are FAA approved by either identity or test and computation. All parts manufactured by Champion Aerospace either meet or exceed the OEM specifications.

The AV-22 catalog should not be used as a verification of approval for the engine/aircraft. This is a guide that requires applicability by OEM or FAA documentation.

How to use the AV-22 Catalog

This catalog is primarily a commercial and general aviation parts guide. The first half of this catalog includes an aircraft to engine identification matrix. The user can identify the aircraft/engine type in the front of the catalog for the ignition system parts. The type of distributor carrying the part is also provided in the matrix. If Champion offers a part for the engine, there is a "yes" indication in the matrix. The user can then go to the appropriate section of the list of igniters, APU igniters, igniter leads, APU leads, and exciters for the specific part numbers.

Champion manufactures different part numbers for each engine application. Some engines have several applicable parts for a specific engine model. The parts may have different designs or materials. The OEM and FAA documentation support the approvals for these parts. We recommend verifying with OEM or FAA documents to make sure you are installing the proper parts for your engine configuration.

The AV-22 catalog includes stand-alone sections for igniter gaskets, industrial parts, military parts and power supplies. The industrial parts, military parts and power supply sections are new to the AV-22 catalog.

Military Parts*

Engine	Platforms	Part Description	NSN	Champion P/N
CFM International CFM56	B737, KC-135	Igniter Plug Assembly, Spark	2925-01-263-9433	CH31900-6
CFM International F108	E-3, KC-135	Igniter, Spark, Gas Turbine Engine	2925-01-198-7528	CH31706D
General Electric F110	F-15, F-16	Igniter	2925-00-393-4670	AA124S2
General Electric F110	F-15, F-16 Afterburner	Igniter	2925-00-415-8965	AA125S-5
General Electric F110	F-15, F-16	Igniter	2925-01-190-9352	CH31765
General Electric F110	B-2, F-15, F-16	Igniter, Spark, Gas Turbine Engine	2925-01-190-9352	CH53541-2
General Electric F404	F-18, F-117, T-8, T-50	Igniter, Spark, Gas Turbine Engine	2925-01-154-2949	CH34190
General Electric F404 AB	F-18, F-117, T-7, T-50	Plug Igniter	4730-01-169-1734	CH34250
General Electric F414	F-18E, JAS 39 Gripen	Igniter, Spark, Gas Turbine Engine	2925-01-443-4251	CH34655
General Electric F414 AB	F-18E, JAS 39 Gripen	Igniter, Spark, Gas Turbine Engine	2925-01-443-5929	CH34673-1, 5114T48P01
General Electric J79	F-4 Phantom	Igniter – Packed	2925-00-925-0545	FHE187-2A
General Electric J79 A/B (F4)	F-4 Phantom	Igniter, Spark, J79 Turbine Engine	2925-00-126-2879	FHE281-3
General Electric J85	F-5 , T-38	Igniter Plug, J85 Engine	2925-01-486-2499	CH34751
General Electric T58	CH-46	Igniter Packed	2925-00-888-5111	CH34095
General Electric T64	CH-53 C/D/E	Igniter, Spark, Gas Turbine Engine	2925-00-152-1825	FHE111-30
General Electric T700	UH-60	FAA Igniter Packed	2925-01-093-5479	CH34439
General Electric CT7, T700	AH-1, AH 64, Bell 214ST, CH-60, CN-235, S-92, Saab 340, UH-60	Igniter Plug, Spark, T700 Engine	2925-01-150-7160	CH34419
General Electric TF34	A-10, CL-600	Igniter Packed	2925-01-034-3141	FHE256-10A
General Electric TF39	C-5	Igniter Packed	2925-01-033-8948	FHE303-3B
Honeywell 36-150	BAE 146, Blackhawk, Challenger 300, Citation X, EMB120, UH-60	Igniter Plug, GTCP36 APU	2920-01-445-9891	CH34313
Honeywell AGT1500	M1 Tank	Igniter Packed	2920-01-074-4992	FS144-1
Honeywell AGT1500	M1 Tank	Exciter	2920-01-286-5685	305017
Honeywell 36-6 APU	DASH-8, ERJ135/140/145, GIT, Jetstar	Igniter, Turbine	2920-00-876-6692	FHE159-6
Honeywell GTC 36-55, GTCP 36-100	AH-64 Apache, Bombardier Challenger 600	Igniter, Spark, Gas Turbine Engine	2920-01-171-0474	CH31713
Honeywell GTC 36-200 APU	F-18, F-117	Igniter, Spark, Gas Turbine Engine	2925-01-142-9043	CH31627
Honeywell GTCP 36-50/101	Various Commercial and Military Programs	Igniter Plug	2920-01-365-3924	CH34540
Honeywell GTCP-85 APU	C-130	Igniter, Spark, Gas Turbine Engine	2920-00-776-4482	CH31723
Honeywell GTCP-85 APU	Various Aircraft	Igniter, Spark, Gas Turbine Engine	2920-00-293-6481	FS47-11
Honeywell GTCP 331-200, TPE331 Series APU	B100, C-212, S-2, Various Aircraft	Igniter, Spark, Gas Turbine Engine	2925-01-029-5130	CH31547C
Honeywell T55	Bell 309 Cobra, Boeing CH-47 Chinook, H47, MH-47, V234	Igniter, Spark, Gas Turbine Engine	2925-01-107-7939	CH34135
Lycoming ALF 502 Series	Avro RJ, BAE 146	Igniter Packed	5935-01-066-0084	CH34452A
Lycoming LTS101, T702	AS350, Bell 222, HH-65	Igniter, Spark, Gas Turbine Engine	2920-00-957-9947	CH34016
Lycoming T53, LTS101	UH-1	Igniter Packed	2925-00-957-9947	FHE211-2
N/A	Various Aircraft	Bushing-Packed	2530-00-4400-2241	6700332
N/A	Various Aircraft	Gasket– Packed	5330-01-340-4661	6800500
N/A	Various Aircraft	Gasket, Thread-On Packed	N/A	6860374
N/A	Various Aircraft	FAA 6800087 Gasket	5330-00-080-0131	M-677
Pratt & Whitney APS500	DASH-8, ERJ135/140/145, GIT, Jetstar	Igniter, Turbine	2920-00-876-6692	FHE159-6
Pratt & Whitney APS500, APS2100, APS3200, 2000 APUs	Beech 300, Various Aircraft	Igniter, Spark, Aircraft Heater	1660-01-295-8869	CH38013
Pratt & Whitney Canada PT6	C-212, UH-1, Various Aircraft	Glow Plug, Turbine, APU	2925-00-157-1602	AGF2-6

Military Parts*

Engine	Platform(s)	Description	NSN	Champion P/N
Pratt & Whitney F117, IT9D, JT8D, 2000, 4000	A300, A310, A330, C-17, B707, B727, B737, B747, DC-8, DC-10, KC-46, MD-11, MD-80	Igniter, Spark, Turbine Engine	2925-01-389-1683	AA134S-1
Pratt & Whitney J52	A-4, EA-6B	Igniter Packed	2925-00-952-7085	AA69SA
Pratt & Whitney JT-3, JT8D	B707, DC-9	Igniter, Spark, Turbine Engine	2925-00-964-0823	AA72SA
Pratt & Whitney PT6A	C-212, C-12, Hurkus, KT-1, T6 Texan, UH-1	Igniter	2925-01-052-0636	CH34055
Rolls-Royce 501KC	Naval Ships	Igniter Packed	2925-01-288-2091	CH37108
Rolls-Royce AE 2100	C-130J	Igniter, Spark, Gas Turbine Engine	2925-01-446-6966	CH31898-1
Rolls-Royce EJ200	Eurofighter	Igniter Assembly, Packed	2925-01-501-5375	CH34747-3
Rolls-Royce EJ200	Eurofighter	Lead	N/A	CH53519-1
Rolls-Royce EJ200	Eurofighter	Lead	N/A	CH53519-2
Rolls-Royce F45-44-401/ Adour MK 871	BAE Hawk	Igniter Packed	2925-01-335-4549	CH34879
Rolls-Royce F45-RR-401/ Adour 951	BAE Hawk, T-45	Igniter Packed	FMS	CH34876
Rolls-Royce Gnome Engine	Westland Lynx; WS-61, AB-204, AB-205	Igniter Plug	2920-01-491-8994	CH34260-1
Rolls-Royce Model 250	Bell 206, Bell 407, GEM 250, MD 500, Westland Lynx	Igniter	2925-00-923-4397	CH34168
Rolls-Royce Model 250	Bell 206, MD 500, S-76	Igniter Packed	2925-01-197-5432	CH34187A
Rolls-Royce Model 250	Bell 206, Bell 407, GEM 250, MD 500, Westland Lynx	Lead	N/A	53153
Rolls-Royce Model 250	Bell 206, Bell 407, GEM 250, MD 501, Westland Lynx	Lead	N/A	53158
Rolls-Royce Model 250	Bell 206, Bell 407, GEM 250, MD 502, Westland Lynx	Lead	N/A	53159
Rolls-Royce Model 250	Bell 206, Bell 407, GEM 250, MD 503, Westland Lynx	Lead	N/A	53247
Rolls-Royce Model 250	Bell 206, Bell 407, GEM 250, MD 504, Westland Lynx	Lead	N/A	53250
Rolls-Royce Model 250	Bell 206, Bell 407, GEM 250, MD 505, Westland Lynx	Lead	N/A	CH53351
Rolls-Royce MTR390	EC-665	Igniter Packed	FMS	CH34807
Rolls-Royce MTR390	EC-665	Lead	N/A	CH53513
Rolls-Royce Pegasus	Harrier AV-8B	Igniter	2925-01-419-3805	CH34590
Rolls-Royce RTM322	F-101, NH90	Igniter, Spark, Gas Turbine Engine	2925-01-504-2648	CH34678-5
Rolls-Royce RTM322	F-101, NH90	Lead	2925-01-481-7162	CH53404
Rolls-Royce RTM322	F-101, NH90	Lead	2925-01-481-7164	CH53405
Rolls-Royce RTM322	F-101, NH90	Lead	2925-01-504-2649	CH53468
Rolls-Royce RTM322	F-101, NH90	Lead	2925-01-504-2650	CH53469
Rolls-Royce TP400	A400M			CH92094-4
Rolls-Royce T56	C-130, E-2, P-3	Spark Plug Igniter Assembly	2925-01-301-1727	CH37114
Rolls-Royce T56 Engine	C-130, E-2, P-3	Lead	2925-00-620-4430	53186-1
Rolls-Royce Viper	BAE 125, Hawker 800, MD 550	FAA Igniter Packed	FMS	FHE205B
Solar Industrial	Various	Industrial Spark Plug	2920-00-512-9162	ED14
Solar T62-T39/40	DASH-8, ERJ135/140/145, GIT, Jetstar	Igniter, Turbine	2920-00-876-6692	FHE159-6
Teledyne J69-T41A	T-37	Igniter, Spark, Gas Turbine Engine	2925-00-127-7828	FHE158C
Williams International WR24	Drone	Igniter Packed	2925-00-814-0429	FHE231A

Warranty

CHAMPION AEROSPACE PRODUCTS WARRANTY SPARK PLUGS, IGNITERS, OIL FILTERS, LEADS & EXCITERS

Champion Aerospace LLC ("Champion") warrants that spark plugs, harnesses, oil filter, exciters, leads and igniters sold by it are, at the time of delivery, free from defects in material and workmanship, provided that no warranty is made with respect to:

- a) any product that has been subject to negligence, accident or improper storage;
- b) any product that has been improperly installed or maintained; or
- c) any product that has been operated beyond normal or recommended replacement intervals or wear limits.

Champion's obligation under this warranty is limited to the replacement of, or at Champion's option, the return of the purchase price of any product which is returned to Champion or its designated representative (at customer's expense) within one (1) year from the date of purchase and which, upon inspection by Champion, is found by Champion to be defective in material or workmanship. Champion shall not be responsible for the cost of labor removing any defective product or installing any replacement product.

THE AFORESAID WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESSED, IMPLIED OR STATUTORY, INCLUDING, BUT NOT BY WAY OF LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

CHAMPION AEROSPACE LLC LIMITATION OF LIABILITY

If Champion Aerospace LLC ("Champion") breaches any of its obligations to Distributor in connection with the sale of any products to Distributor, whether the breach is one of the warranty or for any cause whatsoever, whether in contract or in tort including negligence, Champion may request the return of the products and tender to Distributor the purchase price theretofore paid by Distributor and, in such event, Champion shall have no further redelivery of the products. If Champion so requests the return of the products, Distributor shall redeliver the products to Champion in accordance with Champion's instructions at Champion's expense. THE REMEDIES PROVIDED HEREIN AND IN CHAMPION'S WARRANTY SHALL CONSTITUTE THE SOLE RECOURSE OF DISTRIBUTOR AGAINST CHAMPION FOR BREACH OF ANY OF CHAMPION'S OBLIGATIONS IN CONNECTION WITH THE SALE OF ANY PRODUCTS TO DISTRIBUTOR, WHETHER THE CLAIM IS MADE IN TORT OR IN CONTRACT, INCLUDING CLAIMS BASED ON WARRANTY, NEGLIGENCE, STRICT LIABILITY, DECEIT FRAUD, MISREPRESENTATION OR OTHERWISE.

IN NO EVENT SHALL CHAMPION BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES (REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT OR IN TORT INCLUDING NEGLIGENCE) NOR LOST PROFITS, NOR SHALL CHAMPION'S LIABILITY FOR ANY CLAIMS OR DAMAGE ARISING OUT OF OR CONNECTED WITH THE MANUFACTURE, SALE, DELIVERY OR USE OF ANY PRODUCTS EXCEED THE PURCHASE PRICE OF THE PRODUCTS.

Warranty Terminology

The following serves as a basic explanation of some of the terms used in the Champion warranty. In no event does the following amend or expand Champion's warranty. Furthermore, paragraph 3 through 9 lists several examples which are in no way exclusive to any other scenario.

1. Defect in Material. Defect in the materials used in the product. Examples: a defect in the metal used in this product.
2. Defect in Workmanship. Defect in the workmanship involved in the direct manufacture of the product.
3. Negligence. Any type of mishandling or unreasonable handling of the product or handling of the product which results in damage.
4. Accident. An event beyond the reasonable control of the person involved.
5. Improper Storage. Storage in any environment or location which may cause damage. Example: storage of the product outside of the protective poly tubes.

6. Improperly Installed. Installation not in strict accordance with Champion's specifications. Example: the use of pliers instead of an approved wrench to tighten the product. Example: the installation of the product of an unapproved application.
7. Improperly Maintained. Maintenance not in strict accordance with Champion's specifications. Example: the failure to inspect or replace at the specified or proper time (hours or cycles).
8. Operated Beyond Normal or Recommended Replacement Intervals. Operation beyond normal replacement levels. Example: the continued operation of an igniter at 41 cycles if it requires, by use or specification, replacement at 4 cycles.
9. Operated Beyond Normal or Recommended Wear Limits. Operation beyond normal wear or recommended limits. Example: the continued operation of an igniter 8.34 mm if, by use or specification, it has a maximum ground electrode (shell) erosion limit of 8.33 mm (0.328 in.).

Any igniter that has been subjected to:

- Negligence
- Improper Maintenance
- Accident
- Operated Beyond Replacement Interval
- Improper Storage
- Improper Installation
- Operated Beyond Wear Limits (collectively, the "Factors")

... is beyond warranty coverage. Champion is in no way responsible for ascertaining the presence of any of the above factors; instead, the party to whom Champion extends the warranty is responsible to insure that the above factors do not exist.

If an igniter is replaced during troubleshooting and Champion finds the igniter to be serviceable per the approved Component Maintenance Manual or Igniter Technical Notice and Champion notes no material or workmanship defect during the investigation, or notes or discovers the existence of one or more of the Factors, Champion will not allow warranty replacement or credit.

If Champion notes a material or workmanship defect at the warranty investigation and notes that no Factors exist, a replacement or credit will be issued in accordance with the Champion Aerospace LLC Warranty Statement.
